

■ Smart Analytics Report

AI-Powered Data Analysis with Predictions & Insights

Generated: January 28, 2026 at 03:38 PM
Dataset: 21 rows × 12 columns

■ Executive Summary

This report provides comprehensive analysis of your dataset containing 21 records across 12 variables. Our AI-powered analysis has identified 3 significant trends, 2 key insights, and generated 0 predictions about future patterns. Based on this analysis, we provide 0 actionable recommendations to optimize your outcomes.

■ Trend Analysis

Metric	Trend Direction	Strength	Current Average	Growth Rate
Contact Number	Increasing	Weak	9869509023.57	1896231.05/period
sumInsured	Decreasing	Weak	559857.14	-9259.74/period
premium	Decreasing	Weak	6506.90	-25.39/period

■ Key Insights

■ Insight 1: Found 1 outlier(s) in Contact Number

Range: 9990137035.00 to 9990137035.00

■ Insight 2: Contact Number shows right-skewed distribution

Skewness: 2.48

■ Data Overview

Metric	Value
Total Records	21
Total Variables	12
Numeric Variables	3
Date/Time Variables	0
Text Variables	9
Missing Values	0
Completeness	100.0%
